RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

RESPONSE TO RESTRICTION REQUIREMENT

inissioner for Patents

Sox 1450

indria, VA 22313-1450

In response to the Restriction Requirement dated April 25, Applicants provisionally elect with traverse Group I, containing Claims 1-22 drawn to the substrate holder and the use of a substrate holder.

Applicants respectfully traverse this restriction requirement. The Examiner maintains that "the process as claimed can be practiced by another apparatus such as a step and repeat apparatus for transferring a predetermined pattern formed on a mask onto a substrate". Applicants point out, however, that the claimed process (claim 23) is a method for determining the thickness deviation of a substrate from a predefined standard thickness. A "step and repeat apparatus for transferring a predetermined pattern formed on a mask onto a substrate" does not practice Applicants' method of determining a thickness deviation but, rather, merely images a pattern onto a substrate. As such, because Applicants' apparatus, i.e. a substrate holder 8, is a necessary component in order to determine the thickness deviation by focusing on the flat upper surface of the substrate holder and then on the surface of the substrate to determine the deviation, a step and repeat apparatus does not provide any structure to practice the claimed method. Hence, Applicants submit claims 23-28 are not properly the subject of a restriction requirement.

Along with the restriction requirement, Applicants submit herewith a preliminary amendment adding claim 29, which is similar to method claim 23 but recites the details of the substrate holder in accordance with elected claim 1. Hence, should the Examiner maintain the restriction requirement, it is respectfully submitted claim 29 should also be examined.

In view of the foregoing, Applicants submit all claims 1-29 should be examined.

If there are any questions regarding this response or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (Docket #2098L/49301).
